You replied to this message on 2018-11-01, 20:20.

Dear Umut,

I am treating this as two separate complaints; one against PD and one against the student IA. Consequently, I have another follow up question: You implicate the student, IA. However, from your text all references are to PD. I am thus uncertain what exactly the complaint against AI is about, and if you will submit any further material that would motivate me to investigate the complaint against AI. Could you please clarify?

In the meanwhile, I wish to inform you that we will proceed to investigate the complaint against PD, and that we are currently searching for someone to take on the task (and it will not be the same consultancy that we use in the spring). As you know, these things can run slow, but we will do whatever we can to assure a speedy process. Let me also inform you that I will shortly inform PD about the complaint against her.

Best wishes,
/Christofer
