Damages – Terrorism charges

The pro-government tabloid Takvim reported the incident twice.

The same news has been reproduced in Yeni Akit, one of the most read pro-government newspapers.

Please note that in all these news items, it is claimed that I am named/exposed by Pinar Dinc. I cannot verify this of course, but Pinar Dinc has not posted a single tweet denouncing these allegations so far.
Damages – Terrorism charges

The pro-government website Dirilis Postasi reports that the state prosecutor in Turkey launched an investigation about the allegations of harassment.

The main pro-government newspaper Sabah.

Damages – Terrorism charges

And the government’s main international propaganda machine *Daily Sabah*.

Note that the term used now is “sexual harassment”.

The incident is also reported in independent news media.

My statement was published four days after my name was openly mentioned. I rejected all charges categorically. See

The incident has been reported on TV as well.

I do not have a live link for the first screenshot, but it is broadcast in a “debate programme” on 24 TV, a pro-government news channel. (https://www.yirmidort.tv/)

The second screenshot is from the main state channel TRT Haber (TRT News).

https://www.superhaber.tv/pinar-dinc-kimdir-fetocu-umut-ozkirimliyi-ifsa-eden-pinar-dinc-kimdir-video-280766 (The headline of this video reads: “Who is Pinar Dinc who exposed the Fetöist Umut Ozkirimli?”)

This was shared by Selman Oğut, a very close associate of President Erdogan’s son-in-law, the Minister of Economy Berat Albayrak (considered by some as Erdogan’s successor). Oğut is also the “unofficial” head of AKP’s troll army. The second screenshot reads:

1. The Fetöist Umut Ozkirimli who attacked the Ensar Foundation as harasser in the past has been systematically harassing Pinar Dinc for the last 2.5 years. The Swedish judicial system has failed to stop the harassment. The state prosecutor in Istanbul has taken action.
