Dear Pinar and Umut,

Today I had a meeting with Umut, and last week I met Pinar. We all agree that we have to find a solution regarding the supervision, and I'm sure we can come up with something ok/good for all of us. I highly appreciate your professional view/behavior on this! As you know, I'm only interested in research related questions/challenges, and want to leave all personal things behind.

I will talk to Ronny, and maybe also to you, and hopefully we have a solution next week.

All the best, Petter
