Dear Umut,

Please accept my apologies for not answering your previous emails. And I am sorry that, because of travels and meetings, I was not able to schedule a meeting with you in Lund

Firstly, I have talked to Petter, and reminded Dalia, about the importance that your intellectual contribution to the project design be acknowledged. And it is my expectation that we will find a solution that makes clear your contribution. I appreciate your detailed arguments, but still I would very much appreciate if you refrain from any further interference with the MC project. Petter is trying hard to manage this project under what is a rather delicate situation.

Secondly, I would also ask again that you not to have any interaction, direct or indirect, with Pinar Dinc. I am receiving indications that both parts seem unable or unwilling to move on. Since you both belong to the same workplace your actions directly influence the work environment beyond those directly involved, and thus it becomes my problem upon which I will have to act.

Thirdly, I have prepared an agreement for the sabbatical, but since your sickleave has been extended throughout September, we need to return to this question once you are back at work. Please keep Andrea updated, so that we can settle the details.

Best wishes,  
/Christofer

# Investigation continues

! This message is high priority.

Dear Umut,

I have to inform you that we are still in investigating-mode and that we are asking Margaretha to do a full investigation of added complaints. So, unfortunately this is not yet close to conclusion, but hopefully we will be able to move on without delay. I will contact you again after the weekend.

I request that in the meanwhile you continue to refrain from contacting students at CMES, that you have no contact with PD, and in general that you keep interaction with CMES at a minimum and focus on getting work done from your space at pol sci.

And I ask that all involved maintain a high level of discretion.

Sincerely,  
/Christofer

Dear Umut,

For your information, your name will be removed from the FIRE project in Lucris.

It was my hope that we had signalled very clearly what is expect from you as an employer at LU. Given previous agreement and reminder, and in light of the February report (and your responding email), your decision to post and attach your name to this project in the research portal is both surprising and disappointing.

Best,  
/Christofer
