Dear both

He hasn't replied to my email so I hope doesn't cancel in the last minute. A 20' meeting would not have been enough anyway. Waiting for him to get back to me re meeting with him and my request to record the interview. As some non-CMES-related friends have also confirmed, refusing audio recording would make the whole thing even more suspicious, hence I will insist on having Mattias with me.

Best, Umut

Dear Umut,

I have briefed Adam about the developments and we both think that it is very important that you feel safe in upcoming meetings and that we can be present when you wish. We'll see what Christofer says about your request, but I'm in standby to accompany you to the meeting on Thursday. Please let me know what kind of response you get from Christofer, and I'll take it from there.

Best regards,
Mattias

My reply to the dean. Fyi..

You may see below his earlier email as well. I think there are no grounds to object to me recording the meeting. If they say no, then I believe there are reasons to be suspicious - hence I will insist having Mattias there.

Best, Umut

Dear Christofer

Actually, 20 minutes may not be enough, and having it on Friday might allow me to be a little more relaxed as it will be after my meeting with Marghareta.

As for your request, I spoke to Saco. The thing is, for reasons I will explain in person on Friday, I am having trust issues re the existing system (nothing that relates to the Faculty or Marghareta whose CV shows clearly how professional she is but, to reiterate, the system within which we are all situated). So if she is OK with me to record the interview, I can come alone.

What time on Friday? Doesn't matter if it is late or early, as long we have time to discuss a bit.

Best, Umut
